Tic-Tac-Toe Set 1: Beginner Level (CLB 1/2)

The idea of the game is for students to link together three squares to win as in normal tic-tac-toe. Students gain a square by first reading the question, and then giving a correct sentence /an answer for their chosen word / question. In this way, you can target the game at any level you want. You are welcome to modify to meet your group's need.

Where do you go on the weekends?	When do you go to school?	What language do you speak?
Where do you live?	When do you go to bed?	What is your phone number?
Where are you from?	When do you go shopping?	What is your address?
