**Tic-Tack-Toe Set 1: Intermediate Level (CLB 4/5)**

The idea of the game is for students to link together three squares to win as in normal tic-tack-toe. Students gain a square by first reading the question, and then giving a correct sentence /an answer for their chosen word / question. In this way, you can target the game at any level you want. You are welcome to modify to meet your group's need.
